

Tender no. - TPCODL / CCG / 26-27 / 100009917

Tender Description - Rate Contract - Supply of WPB, RS Joist and H-Pole Pole at TP DISCOMs for One Year

Sl. No.	Tender Reference (Document name/Page no./Clause no./Clause name)	Pre-Bid Query raised by Bidder	CEG/CCG RESPONSE
1	Tender Document / General Delivery	The major raw material, namely WPB sections, is sourced from approved manufacturers, and currently only SAIL is an approved source for this item. As SAIL undertakes rolling and production of these sections in scheduled cycles, generally once every quarter, procurement of the required material is dependent upon the availability of the next rolling cycle after receipt of the manufacturing clearance/order. Considering the lead time involved in raw material procurement, manufacturing, galvanizing, inspection, and dispatch, the stipulated delivery period may not be practically achievable. Therefore, we request that the delivery schedule be revised to 120 days from the date of manufacturing clearance/Release Order for smooth and timely execution of the contract.	Tender Terms & Conditions shall prevail
2	Tender Document / Page 13 / Clause 5.1.2 – Type Test Reports	Since the design and drawings have been provided by TPCODL, the requirement of Type Testing may not be applicable. Therefore, we request the purchaser to confirm that only Factory Acceptance Testing (FAT) shall be applicable for this procurement. Since the design and drawings have been provided by TPCODL, the requirement of Type Testing may not be applicable. Therefore, we request the purchaser to confirm that only Factory Acceptance Testing (FAT) shall be applicable for this procurement.	As per Technical Specification
3	Tender Document / Page 20 / Clause 12.2 – Price shall be FOR	The materials are proposed to be delivered at multiple DISCOM stores/sites. Arranging unloading equipment, labor, and coordination at each delivery location would be challenging for the supplier and may lead to logistical constraints and delays. Therefore, we request the purchaser to kindly consider unloading of the supplied materials at the respective delivery locations under the scope of the DISCOM.	Tender Terms & Conditions shall prevail
4	Tender Document/ Page 20/ Clause 12.3 - BG at 5%	In previous Rate Contracts, suppliers were required to submit Performance Bank Guarantees against the entire RC value. However, in several cases, the complete RC quantity was not released through Release Orders (ROs) by the respective DISCOMs, resulting in unnecessary blockage of banking limits and increased financial burden on suppliers. In view of the above, we request the purchaser to consider limiting the Performance Bank Guarantee amount to 2% of the Rate Contract value, or alternatively on the value of the actual Release Orders issued, to ensure optimal utilization of banking facilities while adequately safeguarding the purchaser's interest.	Tender Terms & Conditions shall prevail
5	WPB Technical Specification- Page 6 / Clause 6 Marking	(The SAIL is not embossing below highlighted marking required in material) 6. MARKING: Following distinct non-erasable embossing is to be made on mid-section of each WPB Poles to be supplied to TPCODL/TPNODL/TPWODL/TPSODL under this Tender. a) ISI Mark - b) WPB 160 c) E-350 A d) Manufacturer Name/ Trade Mark Stencil Marking (non-erasable) is made on mid-section of each WPB Poles to be supplied to TPCODL/TPNODL/TPWODL/TPSODL. a) "TPCODL/TPNODL/TPWODL/TPSODL" b) P.O No and Date of Manufacturing c) Depth of planting (A strip of 20-30 mm shall be painted with oil paint of red colour, on all over of the pole at a planting depth.)	NOTED & Accepted

6	RSJ Pole Specification	(The Sall is not embossing below nighlited marking required in material) 6. MARKING: Following distinct non-erasable embossing is to be made on each RSJ Poles to be supplied to TPCODL/TPNODL/TPWODL/TPSODL under this Tender. a) ISI Mark b) RSJ 150 c) E-250 A (Will be done by BA) d) Manufacturer Name/ Trade Mark Stencil Marking (non-erasable) is made on mid-section of each RSJ Poles to be supplied to TPCODL/TPNODL/TPWODL/TPSODL. a) "TPCODL/TPNODL/TPWODL/TPSODL" b) P.O No and Date of Manufacturing c) Depth of planting (A strip of 20-30 mm shall be painted with oil paint of red colour, on all over of the pole at a planting depth.)	NOTED & Accepted
7	H Pole Specification Page 5 - 6. Marking on H Pole	(The Sall is not embossing below highlited marking required in material) Embossing is to be made - a) ISI Mark b) H Pole 13 Mtr. / 14 Mtr/ 11Mtr. c) E-250 A d) Manufacturer Name/ Trade Mark Engraved Marking (Punching before galvanization) e) "TPCODL/TPNODL/TPWODL/TPSODL" f) P.O No and Date of Manufacturing	NOTED & Accepted
